and unincorporated areas of Dallas County

Bring a driver's license and water bill or other utility bill as proof of current address. Residents of all other cities pay a minimum \$95.00 waste management fee.

Location:

Hours of Operation:

 11234 Plano Road
 Tuesdays
 9:00 a.m. - 7:30 p.m.

 Dallas, Texas 75243
 Wednesdays:
 8:30 a.m. - 5:00 p.m.

 214.553.1765
 Thursdays:
 8:30 a.m. - 5:00 p.m.

2nd and 4th Saturdays of each month:

See MAPSCO 28-A Or go to <u>Mapquest.com</u> 9:00 a.m. - 3:00 p.m.

Closed every Sunday, Monday, and Friday

•	coca croif carraay, morraay	, a.i.a.: ii.a.a.y				
2014 Dallas County & HHW Holiday Closures						
Memorial Day	Monday	May 26th				
Independence Day	Friday	July 4th				
Labor Day	Monday	September 1st				
Thanksgiving Holiday	Thursday & Friday	November 27th & 28th				
Christmas Holiday	Wed / Thurs / Fri	December 24th, 25th & 26th				
	2014 HHW Saturday Closu	res				
	May 24, 2014					
	November 22, 2014					
	December 27, 2014					

Directions:

From 635, go north one mile on Plano Rd. The building is a one-story white building with bright turquoise trim and a tall sign bearing the address and name of the collection center. The facility is located on the east side of Plano Rd., between Miller Rd. and Forest Lane.

Don't Bring:

Business or commercial waste
Containers larger than 5 gallons
Explosives or ammunition
Shock sensitive materials
Smoke detectors or other
Radio-active materials
Medical waste
Common trash or recyclables
Construction debris
TV's, Microwaves and other
Appliances
Tires

For a list of Electronics Recyclers, please visit
Texas Commission on Environmental Quality at www.tceq.com

How to Estimate How Much Paint You Need

When preparing for a painting project, buy wisely so that you don't have to store or dispose of large quantities of leftover paint. This chart will help you determine how much to buy.

	ft.	Χ		ft.	=		_sq.	ft.
The width of a added together			Height of the wall			Total wall surface (Square feet)		
	ft.	х		ft.	=		_sq.	ft.
Height of wind	dow		Width of window			Window surface	_ '	
Repeat Line #	#2 for each wind	dow and	add together.		=		_sq.	ft.
•			J			Total window surface	_ '	
	ft.	x		ft.	=		_sq.	ft.
Height of doo	r		Width of door			Door surface		
Repeat Line #	#4 for each doo	r and add	d together.		=		_sq.	ft.
						Total door surface		
-	sq. f	t. +		sq. ft.	=		_sq.	ft.
Total from line	e #3		Total from line #5			Total surface not painted		
	sq. f	ft. –		sq. ft.	=		_sq.	ft.
Total from line			Total from line #6	9q;		Total surface to be painted	04.	
	sq. f	ft. ÷		sq. ft.	=		_gal.	
Total from line			Manufacturer Spread (# sq. ft. per gal.)			No. of gallons needed for each coat of paint		

What to do with Leftover paint?

Using the estimate chart, you should not have that much, is any, leftover paint. If you do have paint leftover, follow these tips:

- ★ **Use it up.** For small amounts, paint the inside of a cabinet, drawer, or storage shed. Paint a shelf, the dog house, bird feeder, or flower box. As a last resort, try painting old scrap lumber which can be discarded once the paint is dry.
- ★ **Give it away.** If you have an unusable amount of excess paint, offer it to a neighbor, relative, neighborhood group, scout troop, church, or school theater group for use.
- ★ Save it. Oil base paint will keep for many years as long as it is well sealed. To ensure that latex paint will be useable the next time you need it for touch-ups, place a sheet of plastic wrap over the opening of the paint can. Secure the lid on top of the plastic wrap and secure it into place with a hammer. (Cushion the lid with a folded clothe to prevent damage from the hammer.) Store the can of paint upside down and protect it from freezing.

For Latex Only:

- **Dry it.** Paint is only a problem waste when it is in liquid form. Pour latex paint over kitty litter in a shallow container or trench lined with plastic. The litter will help absorb the moisture in the paint. When it has dried completely, break it up and place it in the regular trash.
- **Consolidate it.** Pour partial cans of latex paint together into one can. Empty cans maybe set out in the sun to dry with the lids off. Once all moisture content is gone, the empty cans may be placed in the regular trash.
- **★ Dispose of properly.** Take it to a Home Chemical Collection Center.

HOUSEHOLD HAZARDOUS WASTE HOME CHECK LIST

How many hazardous chemicals do you have in your home? Use this checklist to find out. CAUTION: Children SHOULD NOT touch chemicals nor complete this checklist without the supervision of an adult.

THAT YOU HAVE IN YOUR	HOME:
ammonia	
detergents	
drain cleaners	
floor wax	
furniture polish	
metal polish	
mothballs	
oven cleaners	
septic tank cleaners	
spot removers	
window cleaners	
aerosol sprays	
nail polish remover	
toilet bowl cleaners	
tub & tile cleaners	
artificial dyes	
glues & cements	
household batteries	
paints & stains	
photo chemicals	
pool chemicals	
stain & varnish removers	
thermometers	
turpentine & paint removers	
varnish	
wood sealers	
brake fluid	
car & truck batteries	
lighter fluid	
motor oil	
transmission fluid	
fungicides	
herbicides	
insect repellents	
pesticides	

CHECK ANY OF THE FOLLOWING

WHAT SHOULD YOU DO ABOUT THESE PRODUCTS?

1. IDENTIFY THEM: Look for the following words and phrases on labels:

WARNING * CAUTION * DANGER

Flammable, Volatile, Toxic, Corrosive, Caustic, Reactive, Poison, Contains Phosphates, Eye Irritant, Harmful if Swallowed, Do Not Mix, Wear Rubber Gloves.

- **2. USE UP ENTIRELY:** Always Read labels and follow directions carefully. If you can't use a product up, try to find a neighbor, friend or community organization who can.
- 3. STORE IN A COOL DRY PLACE: Between collection events and trips to the recycling center, keep all hazardous products in original containers with lids fastened securely. Do not mix, combine, or consolidate them.
- 4. RECYCLE OR TAKE TO COLLECTION SITE: Never throw hazardous products away with regular trash. Motor oil, brake and transmission fluid, antifreeze, and car batteries can be recycled at most service stations.
- 5. USE ENVIRONMETALLY SAFE PRODUCTS:
 Use Latex Paints instead of oil based paints.
 Look for products that say: "Environmentally
 Safe", "biodegradable", contains no
 phosphorus", non-toxic", "non-corrosive", "low
 VOC" (Volatile Organic Compounds that cause
 paint "fumes.")
- 6. DON'T LET PRODUCTS GO TO WASTE:
 Buy only what is needed to do the job. Avoid over-purchasing with the thought that it can be used later.
