How to Set Up an Email Address with Yahoo

Step 1:

Open up a web browser
Step 2:
Click in the address bar and type www.yahoo.com then press the Enter key

Step 3:
Click on Mail in the top right hand corner of the page
Step 4:

Click on the blue **Create New Account** button

Step 5:

Type in the following required information:

- First name
- Last name
- A username for your email (if your username is already taken, try one of the suggested variations or a variation of your own)
- A strong password with at least 1 number and 1 uppercase letter
- Your cell phone number
- Your birthday
- Your gender

*Optional information:* You can choose to include another person’s number to be contacted in case you forget your information or get locked out of your account.
Step 5 cont.

Step 6:

Click on the purple **Create Account** button.

Congratulations you now have a Yahoo Email Account!
