When you get into the GoToMeeting application your microphone and web cam should already be turned off. If the icon for the mic and web cam is green, this means they are on. To prevent broadcasting interference, please click on the icon to turn them off. The

green should go away if they are now off.

**Persons who do not keep their mics and web cam turned off, or disrupt the meeting will be removed from the web meeting.**

If you have the GoToMeeting app on your computer, tablet or smartphone, please go into settings and then personal information and type in your First name and Last name.

If you do not have the GoToMeeting app, when you get into the app it will ask you to enter your name. Just enter your First name and Last.
