

# DIY Mask!

## MATERIALS NEEDED

- Sheet of Cloth
- Crayons
- Rubber Bands

ESTIMATED TIME: 5-10 min

## STEPS

1. Lay your cloth sheet on a flat surface and fold it in half, making a crease.
2. Unfold it. Then fold the edges to the crease.
3. Next, hold it by the middle and FLIP! it over so that the back is facing you.
4. Fold the edges to the middle. You should have a very long rectangle.
5. Wrap a rubber band around the two ends of your rectangle. Leave enough room so that the middle part still covers your mouth and nose. (it should look like a piece of candy! Yum!)
6. Fold the edges over one another in the middle.
7. This part's a little tricky: Take one side and stuff it in the other.
8. You now have your very own mask! If you want to get creative, use your crayons to make it look fancy!
