

iPad Basics Answer Sheet

Part One: Basic iPad Buttons and Ports

1. Label the iPad ports and buttons

Part Two: Home Screen and Gestures

2. Fill in the blanks about the iOS interface

The status bar is at the top of the screen and displays current information about your iPad such as the internet connection, time, and battery life.

Pull or swipe down from the top of the screen to view your Notifications. A window will show your reminders and other activity on your iPad.

The icons you see on the screen are called Apps. To open one, simply tap on it once.

The Home Screen is the first thing you see when you turn on your device. It is the starting point for all your apps and navigation.

The Dock at the bottom of the screen is designed for your most frequently used apps.

Swipe up from the bottom of the screen to open the Control Center which allows you to quickly access frequently used settings for your device.

3. Match the letter to the definition of the multi touch gesture. (Only one correct answer for each description)

- | | |
|--|--|
